Cost-Effective Logistical Solutions

Lowering the logistics costs is every company's goal. The reusable plastic packaging systems can help you reduce your overall costs much more efficiently, as compared with any one-way cardboard packaging, foils, bands, etc.

1

Safer Transport

Our products are robust and can keep your handling and storage safer. The maximum protection of the parts has been achieved by means of internal fixation techniques.

2

Making Logistics, More Efficient. Reduce Your Costs, Enhance Your Profits!

Reduce repackaging, multiple handling, product contamination & damage.

More Space

The folding of empty containers both throughout production and return transport has resulted in high savings.

4

Standardization of Packaging

The standard formats makes for swift and seamless integration in virtually any logistics system or supply chain, both inbound and outbound.

3

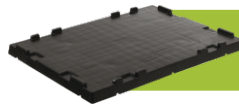

Eco-friendly System

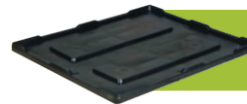

Product Specifications

	MAGNUM® 8060760	1210795	1210900	1210975
